

about stoll

Stoll Industries was formed after a lasting and successful tenure in the fireplace industry. Using their expertise in metal works, Stoll Fireplace, Inc. decided to broaden their custom metal designs to feature cabinets, walls, doors, drawers and backsplashes. Stoll Fireplace, Inc. was established in 1969 when Mr. William Stoll designed and hand-crafted a custom screen for his South Carolina home. After 48 years, Mr. Stoll's Christian values continue to be the guiding principles of the company's ethical standards and customer satisfaction. Today, the 3rd generation of the family continues to build on Stoll's reputation in the industry for innovation, customer support, and quality hand-crafted products for the home. Our wide range of fireplace products, decorative metal wall and backsplash cladding, floating shelves and cabinet and pantry doors can be found in the finest specialty stores and kitchen and design centers all across US and Canada.
