BURNER OPTIONS FOR THE LEGEND G4

G4 - MODEL 780 with STAINLESS BURNER (LOG or ROCK)

The model 780 firebed is divided into two distinct looks - traditional log and contemporary rock with driftwood.

Timeless in design, the traditional log set distributes a steady, even glow throughout the firebox. Resting within the log bed, reflective glass illuminates the hearth and highlights beautiful flame movement.

For those seeking contemporary appeal, we offer the Beachside firebed. Driftwood and river rock nestle gently on a sand base platform, permeating warmth and impressive Valor radiant heat.

G4 - MODEL 785 with CERAMIC BURNER (LOG ONLY)

The model 785 Ceramic Burner comes standard with a high definition log set and consists of two individual burner systems. Dual burners work together, providing a range of heat outputs.

For maximum heat you may select both burners and adjust the flame size up and down to fit your exact comfort needs. (Below left).

If you require less heat but still want the ambience and glowing embers of a real firebed, simply turn off the rear burner and control the front burner independently. (Above right).

This unique feature for the 785 fuel bed is fully controlled from your ValorStat Max handheld remote.

BRICK LINER OPTIONS

There are four brick liner sets to choose from: Valor Red Brick, Ledgestone Liner, Black Enamel Liner and Black Fluted Liner. Standard with every brick set, base bricks cover the bottom of the firebed (in front of the log grate) providing continuity within. *Base bricks used with 780 engine only. See spec page for brick liner images.*

Beachside Rock Set
(780IN/P & 781RSK)

Traditional Log Set
(780IN/P & 782LSK)

Ceramic Burner with High Definition Log Set (785ILN/P)

Valor LEGEND G4 INSERTS — Upgrade Efficiency. Update Design.

G4 - 780 Stainless Burner with 792FTZ Floating Trim Kit in Bronze (5") and 788FBL Black Fluted Liner with 782LSK Log Set

THE VALOR LEGEND G4 INSERT

Introducing the Legend G4, our latest addition to the Valor Insert family. Considered the "big brother" to our highly successful Legend G3 Insert, the G4 is a synthesis of distinct design and energy efficient heating performance.

At Valor, we believe the process of updating your living space esthetics should include a significant upgrade in fireplace technology and efficiency. The G4 pursues this concept with features including:

Distinct Design - Contemporary trims create the perfect frame, showcasing glowing embers and spectacular flames. Positioned within the fireplace, engine controls are effectively "hidden" eliminating the need for space-consuming louvers. These design features further increase the overall viewing area and provide a seamless transition on surrounding wall surfaces.

Radiant & Convected Heat - Engineered to maximize heat, the G4 supplies a continuous flow of radiant and naturally convected warm air. Travelling at the speed of light, radiant energy continuously warms objects in its path. When warming the human body, radiant heat satisfies your comfort needs with up to 25% less overall energy compared to forced air systems.

Valor Dynamic Restrictor Technology (VDRT)* - Exclusive with the Legend G4, VDRT increases thermal efficiencies and automatically adjusts combustion air, maximizing fireplace performance in all conditions. Another Valor first! *(Patents Pending)

No Power, No Problem - Valor Radiant Gas Fireplaces are fully functional heaters that don't require electricity (AC) for steady, efficient operation. Our fireplaces provide the perfect mixture of radiant and convective heat virtually eliminating the need for a fan.

ValorStat Max Remote Control & Valor SmartPilot System *(Standard w/ Purchase)*

The **ValorStat Max** Remote Control gives you the power to select, adjust and program the desired temperature that you want. Timer and Thermostat mode help save energy and lower your home heating costs.

If the optional 795CFK Fan Kit is installed, the ValorStat Max provides full control turning the fan on and off, as well as adjusting the fan speed settings.

Electronic Ignition (Pilot on Demand): The ValorStat Max also has the ability to turn your pilot light **ON** and **OFF** from the programmable handheld remote.

Energy Saving Feature: The Valor SmartPilot System automatically shuts down if there is no activity after 5 days, reducing unnecessary pilot gas consumption and saving energy.

G4 FIREPLACE COMPONENTS

ENGINES	780IN	G4 - Stainless Burner - NG (Must select a Log or Rock Set Kit)
	780IP	G4 - Stainless Burner - LPG (Must select a Log or Rock Set Kit)
	785ILN	G4 - Ceramic Burner - NG (Log Set Included)
	785ILP	G4 - Ceramic Burner - LPG (Log Set Included)
FUEL BEDS	781RSK	Rock Set Kit (For model 780 Engine only)
	782LSK	Log Set Kit (For model 780 Engine only)
LINERS	786LSL	Ledgestone Liner
	787EBL	Enamel Black Liner (Reflective)
	788FBL	Black Fluted Liner
	789VRL	Valor Red Brick Liner
TRIMS | RISERS | ACCESSORIES	790FTV	2-1/2" Floating Trim Kit in Vintage Iron (25-5/16"h X 36"w)
	791STB	5-3/4" Square Trim Kit in Black (28-11/16"h X 43"w)
	791STV	5-3/4" Square Trim Kit in Vintage Iron (28-11/16"h X 43"w)
	792FTV	5" Floating Trim Kit in Vintage Iron (27-5/8"h X 40-5/8"w)
	792FTZ	5" Floating Trim Kit in Bronze (27-5/8"h X 40-5/8"w)
	793RTB	Riser Trim in Black (2-1/2"h X 46"w)
	793RTV	Riser Trim in Vintage Iron (2-1/2"h X 46"w)
	794TBB	Trimmable Backing Plate in Black (31"h X 46"w)
	795CFK	Circulating Fan Kit
	796ALP	Adjustable Leveling Platform
	797FSB	Framed Safety Screen
	1265WSK	Optional Wall Switch Kit
	GV60PAK	Power Adaptor Kit for the ValorStat Max

CONSUMER AWARENESS - Engineered to provide radiant heat for your home, fireplace surfaces (in particular the glass window) will get hot during operation. Objects should be kept a safe distance away from the fireplace at all times. Never allow children to touch the glass. Adult supervision is required. We recommend using a fireplace safety screen if you have children in the home. For additional hearth safety information visit - *www.valorfireplaces.com/safety* (&) *www.hpba.org*.

ABOUT OUR EFFICIENCY RATINGS - All Valor product literature is published using recognized Canadian and US government test methods for determining energy efficiency performance. This ensures our products will perform in your home as rated. Beware of misleading "steady state" efficiency claims made by manufacturers using their own "in-house" test methods. Examples include alterations to venting and installation restrictions which in turn produce false ratings.
Visit *www.valorfireplaces.com* for more information.

## G4 LINERS

VALOR RED BRICK LINER

BLACK ENAMEL LINER

LEDGESTONE LINER

BLACK FLUTED LINER

G4 DIRECT VENTING

Terminal Cap
Flashing
2 x 3" flex liners
Existing fireplace and chimney

Please Note: The maximum vertical vent run for the Legend G4 is 40'. The minimum is 10'.

G4 PRODUCT DIMENSIONS

33" (838 mm)
24" (610 mm)
3" (76 mm)
6' (1.9 m) Fan power cord
Optional fan
15" (381 mm)
3" (76 mm)
3" (76 mm)
4" (102 mm)
Trim (sold separately)
15" (381 mm)
10" (254 mm)
23" (584 mm)

COMBUSTIBLE MANTEL CLEARANCES

With optional Fan depth +3" (76 mm)

Do not put furniture or objects within 36" (914 mm) of the front of appliance

Non-combustible hearth

Mantel Projection A	1" (25 mm)	4" (101 mm)	8" (203 mm)	14" (355 mm)
Mantel Height B*	34" (864 mm)	36" (914 mm)	38" (965 mm)	40" (1016 mm)

*Measure taken from the underside of the mantel to finished hearth or surface that the unit is sitting on.

MODEL/FUEL

Model	Fuel	Burner	Max. Input BTU/hr	Min. Input BTU/hr	Log/Rock Set	Fan Option	EnerGuide P4 Rating**	AFUE**	Max. Output (w/out fan) BTU/hr **
780IN	NG	Stainless	30,000	6,500	Log/Rock	Yes	68.5%	70.1%	21,393
